06/29/2008

15:25:53 Alarm triggered
15:26:06 Call answered- Coconino eleven ninety this is Betty RN here with Doctor Daniel go ahead
15:26:29 This is Coconino eleven ninety I do not copy you. Do you copy me?
15:26:34 Flagstaff Medical Center this is Classic Lifeguard. How do you copy?
15:26:39 I copy go ahead
15:26:42 Flagstaff we have a twenty three year old no excuse me a twenty seven year old male from the south rim of the Grand Canyon who had an allergic reaction today. He is currently alert and oriented breathing regularly even without any effort, Glasgow of 15 Break
15:27:01 Uh reportedly came into the clinic because he had a bite or some kind of rash on his right ankle went into the clinic and they gave him a gram of rocephin IV, Uh, which immediately I guess he had an anaphylactic reaction, Uh, post intubation was treated with one hundred twenty five of solumedrol Break
15:27:21 Given twenty five of benadryl, point four of epi subq which he responded appropriately to and the patient was given three liters of fluid on scene prior to arrival of Classic Lifeguard. Currently the patients vitals are one eleven over fifty two, pulse of one o one, respiratory rate of twenty, temperature of ninety nine point one, he reports zero of ten pain. Patient has two IV's in place, Uh, is on nasal cannula satting ninety eight percent on two liters. Our ETA is about eighteen minutes. Do you have any further questions at this time?
15:27:58 Did you say ni ninety eight percent on two liters nasal cannula, is that right?
15:28:02 Yes that's affirmative ninety eight percent on two liters, Uh, the patient has no significant history other than he had a recent, Uh, thing of bronchitis treated with a Z pack and no known allergies prior to this rocephin Break
15:28:16 Any further questions Flag?
15:28:19 Nothing further we will see you in about 18 minutes Coconino eleven ninety clear
15:28:21 Classic Lifeguard copy clear
15:28:24 Call terminated
