LT Waddington,

Thank you for your response. We can assure you that we will continue our SMS upgrade and implementation efforts, readying the Empress for the 2008 operating season. We also can assure you that prior to the Empress making her way north, we would like to meet with you and the responsible USCG personnel in Juneau to elaborate on our new and revised SMS, and on the 2008 sailing season in Alaska.

Best regards,
Nico Corbijn
Executive VP Operations
Majestic America Line

Mr. Corbijn,

Thanks for your thoughtful response.

We are currently evaluating the information you provided; however, we believe you have satisfied the requirement of our October 1, 2007 correspondence. While we certainly appreciate your generous offer to fly several of us down to Seattle to meet with you and ABS, our legal staff suggests that we must decline.

We will respond to you in writing with further comments or clarifications if necessary. We look forward to possibly holding a teleconference at some point prior to next year's operations as an alternative to meeting one on one.

LMK if you have any further questions.

v/r
LT Randy Waddington
