Julie,

Would you please make a copy of this email and add it to the D&A testing program binder. May be file it just behind the audit results that I believe are at the beginning of the binder.

Also attached is a copy of the Quest Diagnostics lab results for the first six months of 2008. Please add it to the D&A binder under the section on MIS Submission.

Thanks,

Sean Gabe

r. Gabe,

Thank-you for the information. The two pages are no problem.

This does complete the last of the DAPI audit requirements.

If you have any further questions or concerns please don't hesitate to contact myself or my replacement, ENS Samud Looney, and we will be happy to assist.

Sincerely,

Lt Sara Young

**Subject:** Supervisor Training

Lt. Young,

Attached are two signature sheets (four pages) documenting the required training for supervisors. Unfortunately a second sign off sheet was inadvertently included in the sign off folder so some pilots signed the copy rather than the original. I hope you will accept the two signature sheets as proof that the pilots have complete the required training.

All of the marine employees who are considered supervisors have also completed the required training.

I hope this completes all the DAPI audit requirements.

Best regards,

Sean Gabe
