

## Transportation Safety Board – Safety Issues Investigation into Fishing Vessel Safety in Canada

### **BIOGRAPHY**

Marcel Ayeko joined Transportation Safety Board of Canada (TSB-Canada) in 1991; job highlights included investigation, safety analysis, risk assessment and the development of safety recommendations in various positions ranging from Manager of Quality and Performance, Chief of Safety Analysis to Director of Investigation Operations. Marcel has assisted the International Maritime Organization (IMO) in the delivery of IMO Regional Marine Casualty Investigation model courses in St. Kitts for Caribbean region administrations (2007) and in Suva for South Pacific region administrations (2009). He also conducts an annual TSB Integrated Safety Investigation Methodology (ISIM) training course. The 3-day ISIM course is mandatory for all TSB investigators which is widely attended by international maritime administrations as well as representatives from air, marine and railway transportation industry.

Marcel is a Chartered Engineer with Master degree in Naval Architecture and is the Member of the Royal Institution of Naval Architects. He has delivered several papers on various subjects of marine safety at conferences in Canada, US, Spain, Bulgaria, France, Croatia, the United Kingdom, China, Malta, Panama and Iceland.
