Biography:

Geron Bruce is an assistant director for the Division of Commercial Fisheries, Alaska Department of Fish and Game. He is responsible for the management of the public information functions of the division. This includes the supervision of the division's internet site and publications policies, administration of state confidentiality statutes, registration of seafood processors and direct marketers, and the collection and dissemination of information regarding the buying and production of seafood in the State of Alaska. His duties also include work on the division's budget, organizational planning, workforce development, and coordination of the division's interaction with the Alaska Legislature. Mr. Bruce has extensive experience in both state regulatory and legislative processes. Prior to joining the Department of Fish and Game in 1991, Mr. Bruce operated a commercial fishing business and represented commercial fishing interests on regulatory and legislative issues.
