

# Transition Training

Join us for this special NTSB Safety Seminar addressing the risks involved when pilots have not acquired adequate training for different aircraft they may be operating.

This is the thirteenth in a series of NTSB safety seminars focused on general aviation accidents. **NTSB Member Earl Weener** will be a featured presenter. Attendees will also hear presentations from **NTSB investigators**, as well as representatives from **AOPA, NAFI, and Cirrus Aircraft**, regarding their perspectives on best practices in the industry and the resources available to pilots and flight instructors.

The four-hour program is **FREE**, and pilots participating in the FAA's WINGS program will receive credit for attendance. The seminar is solely an instructional opportunity and not a media event. **Because space is limited, early registration is highly recommended.**

**Date:** Saturday, December 2, 2017

**Time:** 0900–1330

**Location:** NTSB Training Center, Ashburn, VA

**Register now:** [CLICK HERE](#)

FEATURED PRESENTER  
The Honorable  
**Earl F. Weener, PhD**  
NTSB Board Member

The NTSB Training Center doors will open at 0830 and the seminar will run from 0900–1330. Attendees must have a government-issued photo ID, such as a driver's license, to enter the building.

NTSB Training Center Contact:

**Jill Demko**

The NTSB is an independent federal agency charged by Congress with investigating every civil aviation accident in the United States and significant accidents in other modes of transportation—highway, marine, railroad and pipeline. The NTSB determines the probable cause of the accidents and issues safety recommendations aimed at preventing future accidents. For more information, visit [www.ntsb.gov](http://www.ntsb.gov)
