

Day 1 Closing Statement

Chairman Sumwalt

Now that all of today's witnesses have testified, in just a few moments we will adjourn for the day. Tomorrow morning, as we did today, we will begin at 8:30.

On behalf of my fellow Board members and the NTSB staff, I thank each of the witnesses for being here today and for your great testimony. I certainly want to thank the parties for your cooperation.

When we slam the gavel down, the witnesses will be excused. Tomorrow will be an interesting day. We have some great presentations that will help us understand how other industries are managing safety, how other countries are managing rail safety, and the safety management business. We stand in recess until 8:30 tomorrow morning.
